AN ISO 9001 : 2015 CERTIFIED COMPANY

ORGANIZATION OVERVIEW

ROYSONS is an ISO 9001:2015 certified company with more than 25 years of industry expertise, committed to delivering reliable, precision-engineered electrical, industrial, refractory, and infrastructure solutions. With a strong focus on quality, performance, and customer satisfaction, ROYSONS has established itself as a trusted name for dependable products designed to meet the evolving requirements of electrical, industrial, commercial, and infrastructure projects.

We specialize in cable trays, cable glands, cable lugs, electrical cables, refractory items, and allied industrial and electrical products, offering solutions that support safe, organized, efficient, and durable installations. Backed by over 25 years of experience, our product range is selected with a strong emphasis on material quality, dimensional accuracy, durability, heat resistance, and dependable performance, helping customers achieve long-lasting and professionally executed projects.

**OUR
VISION**

**OUR
MISSION**

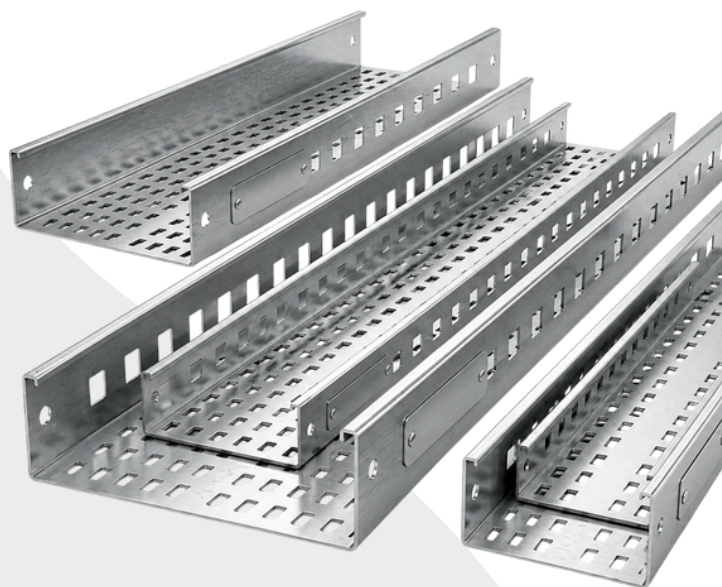

To become a globally preferred leader and partner for high-performance electrical, industrial, refractory, and infrastructure components, consistently advancing safety, innovation, and operational efficiency across sectors. By continuously leveraging cutting-edge engineering practices and stringent quality benchmarks, ROYSONS strives to set new standards of product dependability, ultimately empowering modern infrastructure and industrial developments worldwide.

ROYSONS is dedicated to manufacturing and supplying top-tier ISO 9001:2015 certified electrical lugs, cable glands, trays, refractory items, and allied industrial components of uncompromising quality. We strive to provide precision-engineered, highly durable, and heat-resistant solutions, while actively fostering long-term strategic client partnerships built on technical excellence, continuous innovation, superior material integrity, and exceptional service standards across every single project.

Cable Trays

We provide durable, efficient, and reliable cable tray solutions designed for safe and organized cable management across electrical, industrial, commercial, and infrastructure projects. Our cable trays are manufactured using quality materials and precision engineering to ensure excellent strength, corrosion resistance, and long-lasting performance. With a strong focus on quality and customer requirements, we offer customized solutions for different cable management applications.

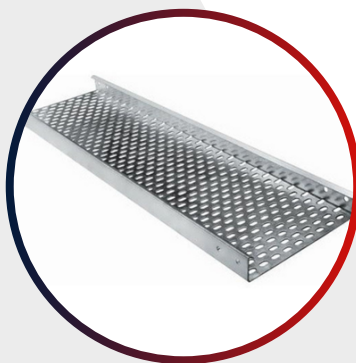

Technical Specifications

Parameter	Specification
Product Type	Ladder Type / Perforated / Solid Bottom / Wire Mesh Cable Tray
Material	Mild Steel (MS) / Galvanized Iron (GI) / Stainless Steel (SS)
Material Grade	IS 2062 / Equivalent Grade
Surface Finish	Hot-Dip Galvanized / Pre-Galvanized / Powder Coated
Galvanizing Thickness	Typically 70–100 μm , as per project requirement
Tray Width	50 mm – 1000 mm or as required
Tray Height	25 mm – 150 mm
Standard Length	2.5 m / 3 m or as required
Sheet Thickness	1.2 mm – 3.0 mm, depending on size and load
Rung Spacing	150 mm / 200 mm / 250 mm or customized
Operating Temperature	Suitable for specified installation environment
Customization	Width, height, thickness, length, finish & configuration as required

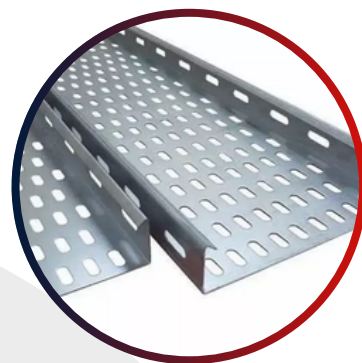

Types of Cable Trays We Supply

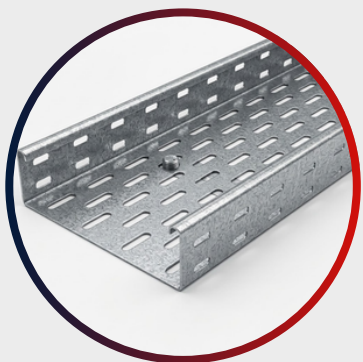

Perforated Cable Tray

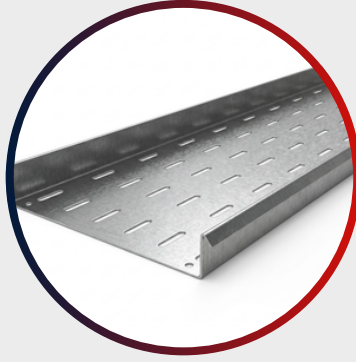

MS Cable Tray

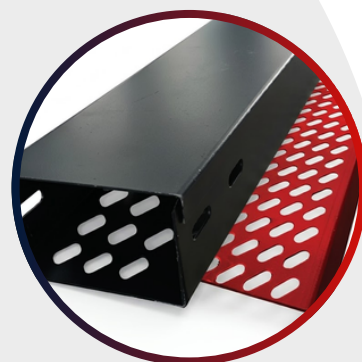

SS Cable Tray

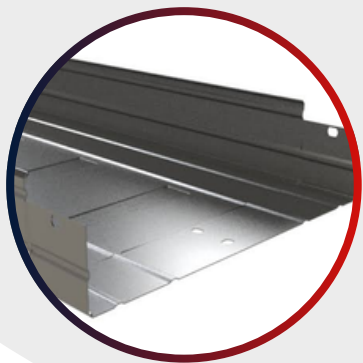

Aluminum Cable Tray

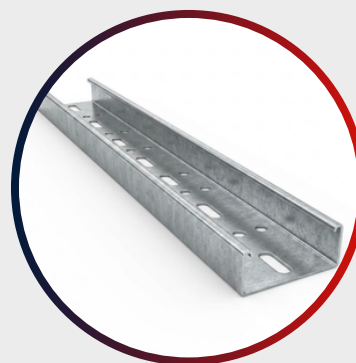

GI Cable Tray

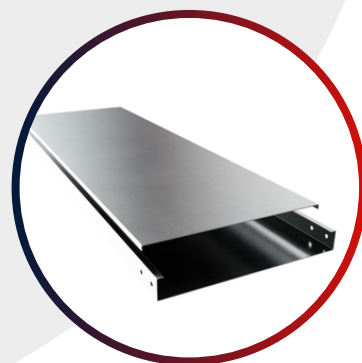

**Powder Coated
Cable Tray**

**Solid Bottom
Cable Trays**

**Channel
Cable Tray**

**Cable Tray
Cover**

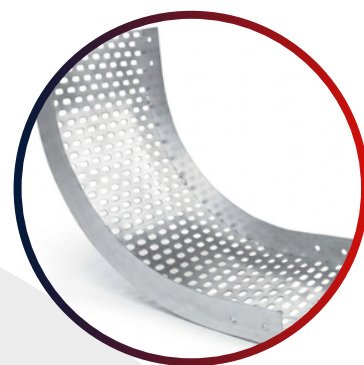

Complete Range of Cable Tray Accessories

Straight Splice Plate

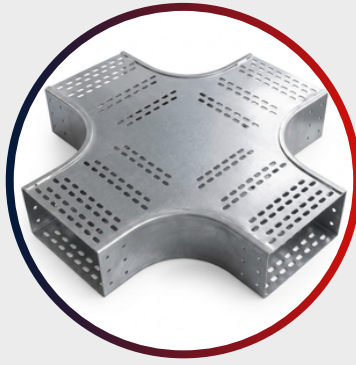

Horizontal Bend

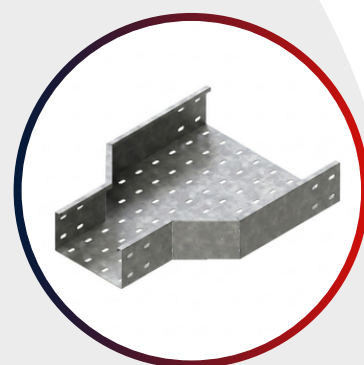

Vertical Bend

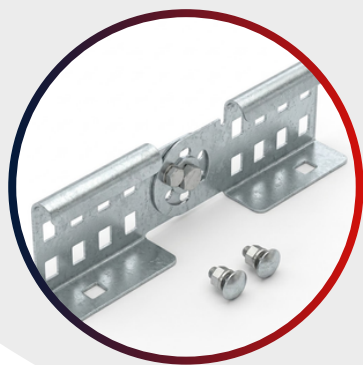

Horizontal Tee

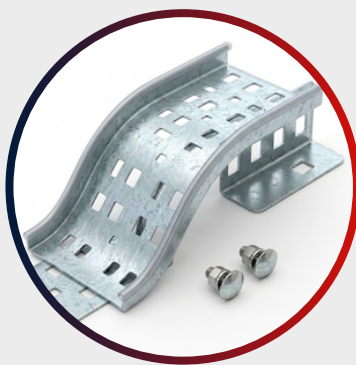

Horizontal Cross

Reducer

**Adjustable Pivot
Coupler**

**Cable
Drop-Out Plate**

**Fastener Kit
(Bolts, Nuts & Washers)**

PRODUCT PORTFOLIO

Cable Glands & Cable Lugs

We provide high-quality, reliable Cable Glands & Cable Lugs designed for secure cable termination, connection, and protection across electrical, industrial, commercial, and infrastructure applications. Our products offer excellent mechanical strength, electrical conductivity, corrosion resistance, and long-lasting performance, making them suitable for power cables, control cables, instrumentation, and various electrical installations. With a strong focus on quality, dimensional accuracy, and customer requirements, we offer dependable cable termination solutions tailored to meet diverse electrical and industrial needs.

High-quality Cable Glands built for ultimate protection

We manufacture high-quality Cable Glands engineered for secure termination, sealing, protection, and durability. Available in various sizes, our products offer reliable performance and corrosion resistance for industrial, commercial, and infrastructure applications.

We manufacture high-quality Cable Lugs engineered for secure termination, optimal conductivity, protection, and durability. Available in various sizes, our products offer reliable performance and corrosion resistance for industrial, commercial, and infrastructure applications.

High-performance Cable Lugs built to deliver strength

PRODUCT PORTFOLIO

Electrical Wires & Cables

We provide high-quality, reliable Electrical Wires & Cables designed for secure transmission, efficient power distribution, and protection across electrical, industrial, commercial, and infrastructure applications. Our products offer excellent mechanical strength, optimal conductivity, heat resistance, and long-lasting performance, making them suitable for power systems, control circuits, instrumentation, and diverse electrical installations. With a strong focus on quality, safety standards, and customer requirements, we offer dependable wiring and cabling solutions tailored to meet your project needs.
